

LaCinema Rugged HD

High-Definition Media Player | Hi-Speed USB 2.0

High Definition. Now Playing Everywhere.

Design by Neil Poulton

Play Your Media on HDTV

With the LaCinema Rugged HD, you'll be able to access and enjoy your files on any HDTV. You can watch television shows and movies, listen to music, and create photo slideshows to share with your friends and family. Created for LaCie by world-famous industrial designer Neil Poulton, the LaCinema Rugged HD goes beyond ordinary multimedia hard disks with its sophisticated all-terrain design.

Your Life in High Definition

The LaCinema Rugged HD comes with HDMI built-in, allowing you to watch movies and television programs on your HDTV, or even enjoy your photos in full HD resolution. Choose from among MPEG-1, MPEG-2 (AVI, VOB, IFO, ISO), MPEG-4 (AVI, XviD), H.264, WMV9, and VC-1 video codecs to ensure easy playback.

Rugged and Mobile

You're free to take your media with you with the LaCinema Rugged HD; its unique varnished, scratch-protected aluminum shell and shock-resistant rubber sleeve make it especially resistant to harsh elements for extra protection wherever you go. Based on the design of our popular LaCie Rugged Hard Disk, the LaCinema Rugged HD has many of the same robust features, and the same great look as the original Rugged.

Easy to Use

With a smart and simple user interface, as well as a convenient remote control, the LaCinema Rugged HD is both practical and user-friendly. By connecting it to your computer via USB, you can store your multimedia files, then access them later through any television. Its 500GB capacity is large enough to hold most media libraries.

500GB* =
710 movies or
165,000 songs or
500,000 photos**

- Play your HD movies on any HDTV
- Store your whole movie, photo and music library in one place
